What is The Fund for Greensboro?

The Fund for Greensboro is dedicated to supporting social, educational, artistic, cultural, recreational, economic, human service, and environmental initiatives in Greensboro and its surrounding community. It was established to invest in a diverse array of organizations, infrastructure, and initiatives that strengthen and enhance our community and to provide a resource for unforeseeable needs.

The Fund for Greensboro operates under the auspices of the Greensboro Association, a registered 501(c)(3) organization. It is supported by tax-deductible gifts from individuals who wish to contribute to the vitality of the Greensboro community for generations to come. The Fund for Greensboro currently consists of two funds, The Community Fund and The Caspian Lake Fund.

The Community Endowment Fund
The Community Endowment Fund generates annual income to augment the Greensboro Association Grants Program, which supports diverse community activities. Funded activities include educational and cultural activities, social and health care services, environmental stewardship, and recreation. Once $100,000 is reached, 2-4% annually will supplement the Grants Program.

The Caspian Lake Fund
The Caspian Lake Fund is dedicated to the protection of the pristine quality of Caspian Lake through community education and targeted programs to prevent and mitigate contamination and environmental threats. It is funded by annual and legacy gifts, and is guided by a steering committee.

Other Funds
The Fund for Greensboro welcomes additional gifts focused on specific areas or initiatives of choice. Please contact committee members to inquire about establishing a fund.

Grants
14 projects were supported in 2017. To learn more about our grants program and the diverse projects The Fund For Greensboro supports, visit: www.GreensboroAssociation.com/TheFund
