What is the work of the Greensboro Association?

COMMUNICATIONS

A primary role of the Greensboro Association is building community through communication, (sharing local activities, news, and events) through the Association's website, social media channels, and its biennial membership directory. The Communications Committee ensures members are reliably informed and connected.

LAKES AND ENVIRONMENTAL STEWARDSHIP

The Greensboro Association's Lakes and Environmental Stewardship Committee monitors lake levels, tests lake water quality, provides lake protection services and information, and facilitates Greensboro's partnerships with the state's Lake and Watershed Action Plan and the Lake Wise Program.

COMMUNITY INITIATIVES AND GRANTS

The Greensboro Association supports community and member-driven initiatives and distributes funds to selected applicants dedicated to human services, educational, cultural, and recreational activities.

More information about the Greensboro Association's committees may be found at: <https://greensboroassociation.org/about/committees/>.
