Lakes and Environmental Stewardship Report

New Business and Membership Comments

Guest Speaker: Lauren Jenness, New England Interstate Water Pollution Control Commission (NEIWPCC) Environmental Analyst, Lake Champlain Basin Program, will share information about the GA's participation in the Stream Wise Program, which the GA will soon be starting. If you live on land on the feeder brooks into Caspian Lake or Greensboro Brook, or on the Lamoille River or its tributaries in Greensboro Bend, getting a Stream Wise assessment can help you take the best possible care of your stream side property.

Guest Speaker: Kent Hansen, Chair of the Greensboro Planning Commission.
